Hello, my name is Jiaolin (Amber) Chen, a third-year business student at the University of Regina. I am running for Faculty of Business Administration Director. I have four years of experience in organizing events and hosting performances in Vancouver and I've participated Hill Business Student Association in 2019 - 2020. As a business student, I understand the importance of networking opportunities and social experience. I hope I could be the bridge between faculty and business students, help us to solve ongoing problems, and improve our business student community.

- As a student representative of URSU, I will connect the student groups under the faculty of business to URSU by transferring the information amongst one another.
- Provide business insights to related discussions on the board based on my professional knowledge from my degree in Business Administration.
- Participate in the URSU governance and contribute to the improvement of internal management
