

**PETITION**

This is advocating for Indigenous Studies to be made a mandatory course for any and all degree, diploma, or certificate programs at the University of Regina including the federated colleges. This will improve the relationships of students who are Non-Aboriginal, and Aboriginal.

Once this change in our educational institution is made, students will be able to apply the knowledge attained to all aspects of daily living such as at home, school, and the workplace.

**Please Sign:** If you believe it is our right to be informed of Canada's National Struggle with systemic racism towards Aboriginals today.

**Please Sign:** If you believe that University Students are adults and are capable of developing an independent and realistic outlook of Aboriginal people.

**PLEASE SIGN**
