

As a department voting for our representative is essential as it expresses our needs and wants in a streamlined manner which makes them doable and achievable. I am Eman Mohammed, a second-year business student studying international business. I am running for the position of business director of the University of Regina Students' Union. I would like to represent business students for the year 2017-2018. Our faculty is very diverse and we need a deserve representative that mirrors this diversity. I will be working very closely with the business faculty to ensure that everyone's needs are met.

If I am elected, I will work hard to integrate inclusivity into the business faculty. I believe that to be one of the best business schools in Canada, diversity and inclusion should be on the top of our list. In addition to this, I will also work hard and fight to increase the budget for international business students on campus. As a former director for international business students, I noticed that the budget for business students who are international was little to nothing and it made it hard to create events that would help out students and promote inclusion. In addition to this, I will also work hard to get more funding for business students so that business clubs on campus will be able to thrive and organize events that will be beneficial to students both in the short and long term.
