

To ensure the effective running of the university's student union, we the students have to vote as the changes affect us, voting is a way of making our voice heard. My name is Faith Olanipekun and I am a 3rd year business student majoring in accounting and a certificate in economics. I am running to be your student union vice-president, operations and finance.

Our student union gets about \$3,000,000 per year from student fees which I believe has the ability to make a positive impact on each student on campus with the proper budget allocation. If elected, I plan on working to ensure accountability, efficiency, and transparency. As a student in this institution, the price of textbooks is prohibitive to us all; I plan on expanding the union's already existing free course text programme while working with the president and executive team to petition the university to move to open source books. In addition to this, I would also like to see an increase in food quality on campus as well as getting more restaurants to serve students at affordable prices. As the former president of the African Club, getting funding from the union for our events was beneficial to our club therefore a proliferation of URSU funding to student run events and activities is also something I plan to work for. I will also work with the student union leadership to bring tuition to a sustainable level for all.
