

My name is Imran Ahamed and I am a first-year graduate student in the Electronics System Engineering department. I am running for URSU Graduate Director and Graduate Student Council because I want to continue improving the graduate student experience at the University of Regina. The decision to come to UoR has been one of the best ones I have ever made. I have enjoyed my time here and I am excited to have the opportunity to make it better. In my three years of work tenure with one of the Fortune 500 companies I have gained a great deal of analytical and leadership skills. I would like to put those skills to work in higher education and URSU is a great place to start.

As a Graduate Student Director, my job will be to make your experience at UoR an extraordinary one and to exceed your expectations. I am asking for you to give me that chance by voting for me for URSU Graduate Director and Graduate Student Council. Thank you for your support!
