

My name is Maria Aman, and I'm running for your Vice President Student Affairs!

I have completed my undergrad degree in Psychology and am currently pursuing certificates in Sustainability and the Non Profits and Voluntary Sector. Serving as a board member on the University of Regina Students Union over the past three years, has been an essential tool for my personal and professional development. I strongly believe this has given me an edge in knowing and understanding what it is that students want and need from our university campus. I want to ensure that students best interests are kept at heart throughout my time in office, and if elected I will prove that in my passion and work ethic everyday. I've been an extremely active and involved member of the University community; in various campus clubs, societies and community initiatives for the past six years. I'm more than equipped with the tools, knowledge and functions of the Students Union, and I know you can count on me to be a strong voice for the many issues we face as students. I believe that all of my past experiences have shown my commitment to this university, as well as this Students Union. Your voice matters and if you vote for me, I'll make sure that it's heard!

Please feel free to ask me questions throughout my campaign, I want to answer them!

Feel free to check out my Facebook Page for my platform ideas: Maria Aman for Vice President Student Affairs.
