

My name is Skyler Anderson. I am a 2nd year Indian Art student through the First Nations University. I have been on the First Nations University's Student Association as well as the Indigenous Students Association through the U of R. I am also a Student Assistant at the Aboriginal Student Centre where I help with all of their student events and functions as well as assisting the Elders in their ceremonies. It is my desire to bring the skills and abilities that I have learned through both Associations and the Aboriginal Students Centre to the University of Regina Students' Union.

Being on both Students Associations as well as working at the Aboriginal Student Centre, I have extensive experience in the running and planning of First Nations events and ceremonies. Through my work I have met and networked with a lot of the First Nations and Metis community on campus. I will use my knowledge to push for more First Nations events, as well as keeping the First Nations University informed of events from the U of R. I will strive to be the main vessel of information for both of the student council's as well as helping to bridge any gap of information when URSU and the Fnuiv Sa is contacting one another.

I hope for your vote and I look forward to representing the First Nations University students, and working toward improving the bond between the two council's.
