

My name is Carly Hill and I am excited to be running for Campion College Director. If re-elected, this will be my second year representing Campion on the URSU Board of Directors as a voice for Campion and all student members. As an active Campion student in the Science Faculty, I understand the hard work that Campion students devote to their studies, research, and on-campus involvement. I belong to the Campion Advantage Program, Pre-Med Club, and the Dance Team here at the University of Regina, but off-campus I enjoy teaching dance and working for the EYES program to inspire and engage young minds in science and engineering. My ultimate aim is to effectively represent Campion College's deserving student body by applying my unique skill set. While my persistent nature is exemplified through my acceptance onto the Dean's Honor List, my compassion is best noted through my volunteer work. My efforts with Carmichael Outreach, Souls Harbour Rescue Mission, North-Central Family Center, Regina Qu'Appelle Health Region: Pediatrics, and Christ the King Parish have given me a greater outlook and prompted me to view daily life through minority eyes—an important issue that I would be honored to explore within the Campion community if re-elected. Through my voice, the voice of all Campion students will be well heard and accounted for. I hope to provide insight on future and current areas of needed improvement regarding Campion facilities, resources, events, and programs.
