

As a fourth year Psychology major, I will be running for the Vice President Operations and Finance in this year's URSU election. Over the years of attending university I have been involved in and sat on many committees at various levels, such as, President of the Psychology Students' Association and a member on the Academic Program Development Committee. Between the involvement I have had with the various volunteer positions on campus and the jobs I have held in the community, I have gained the experience and insight needed to act as a voice for the students of the University of Regina. If elected, I would represent the interests of the student population, in a fair and equitable manner, ensuring that your issues of concern are being addressed. I would press hard issues, such as rising tuition, the disparity between international and domestic students, and the lack of support shown to students, that others may shy away from. Beyond that, I would represent our university at a public level, build lasting relationships, and work to enhance the experience we all have as students.
