Platform for Director of Business Administration

As the Faculty of Business Administration's representation on the URSU Board of Directors, my main goal would be to enhance communication channels between URSU and the Faculty of Business Administration, as well as improving co-operation between the two groups.

I will ensure that concerns raised by members of the business faculty will be heard, and will be dealt with in a timely manner. I hope to assist in guaranteeing that the Faculty of Business Administration is an open, welcoming space for people of all backgrounds. As well, I aim to serve as an intermediary of sorts for extracurricular business groups such as the Business Students' Society, JDC West, and more, and I intend to support these groups in their interactions with URSU.

On top of this, I seek to improve cohesion between URSU and the business faculty, and assist in the pooling of resources in appropriate situations. Collaboration between URSU and the Faculty of Business Administration will enable both groups to push their boundaries of achievement, and increase the scale of university events and opportunities.

As the representative for Business Administration, my main duty is to provide a voice for the members of the Faculty of Business Administration. Therefore, I look forward to further assisting members of the faculty, and ensuring that their university experience is hot as hill.
