

My name is Supreet Kaur Pandher, I am taking business administration in the University and this is my second year .I am applying for Part time Director's position and I think I am eligible for this position because I have capabilities that I can bring students' issues forward . I have leadership skills and experience as I used to be the head girl of my school back in India which gave me experience about how to deal with problems and bring issues forward. As I am going to be a part time student in this May, so I think I am eligible for this position as me being a part time student myself will bring me one step closer to understanding the problems of other part time students as well .

Thanks
