

My name is Dakota Kaufman. I am convocating this semester with a Certificate in Computer Science from Luther College. I am also in my last year of my Bachelor of Science with a major in Computer Science through Luther College. I have been on the Luther University Student Association for the past four years as Treasurer. In that time I have been able to help shape LUSA into what it is today. I have been through Presidents that are big spenders and others that do not want to spend anything, so I know how to handle funding. I was told that the position of Luther Director was open and I decided that this would be the next logical step for me to be able to help LUSA and URSU. My goal for the year is to help Luther student in their endeavours. I hope that I will be able to fill the position of Luther Director and make the best out of the opportunity if given the chance.
