

Oleksandr Tsuprak

Students do not have a citizenship; Students are the citizen of planet the Earth!

1. Be first University which abolished any sign of segregation between men and women, even on the official documents.
2. Create facilities that will be affordable even for poor students, such as stations with hot water.
3. Information center where students find answer to any question that concern students.
4. Fast reaction group to any discrimination that occurred in anywhere, which makes investigation and reacts for it.
5. A science plant, that will be accessible to any student, to test own ideas, and looking for sponsors for researches.
6. Create music alley, where can perform own music any student.
