

Hi! My name is Lorene Entz. I am excited and passionate about all things related to students' voices being heard, and I am committed to speaking for and on behalf of what is best for students in the short and long term if elected.

I have 2 & 1/2 years experience being part of the Students' Association of Medicine Hat College as a student representative, where I was the voice for students in bringing their issues forward in discussions with the executive. Considering the needs and wants of the students and making all decisions with that in mind was a top priority of the Council. As part of being on Council, I was involved in the Presidents' Students Advisory Council and General Academic Council, as well as the Students' Association policy, budget, and events committees.

I am currently enrolled in the Johnson-Shoyama Graduate School of Public Policy, and I have a business degree from Medicine Hat College.
