

Candidate Profile

My name is Alfred Adenuga, and I am a 2nd year Economics student at the University of Regina. I would like to put forward my candidacy for the VP Student Affairs position as well as the Arts director position in the forthcoming elections. I am passionate, dedicated, and committed to serving. These are some of the many qualities that I would bring to URSU. During my time in high school, I served on the student council. This position allowed me to hone my leadership, organization, problem solving, and critical thinking skills. I believe that these skills make me a valuable representative who will contribute to the overall success of the University of Regina Students' Union.

Since I moved here from Nigeria in January 2018, my time at the University of Regina has been packed with many valuable experiences. Now, I am eager to give back. I have served on the University Council as the Faculty of Arts representative, I have dedicated many hours to volunteering through the UR Ambassador program, and I have personally benefited from the broad range of education an Arts major receives. With this experience, I hope to engage with other Arts students to foster an environment that breeds critical thinkers, influential creatives, and collaborative leaders who will all work together to create a better society here at the University.

I look forward to serving the best interest of students as an elected member of URSU Council. Thank you for voting!
