

Your Opinion matters

Vote Deol

To Voice You.

Name – Davinderpal Singh Deol

I am an International Student studying Business at U of R. I was the head boy of my class for four years in India. Being an International student myself and having an empathetic attitude, I understand the issues International and local students face. I would like to continue to be the voice of students at U of R and work closely to advocate for student issues and to bring solutions to them. Moreover, i will try my best to provide the translators for those students who has English as their Second language. I would use my leadership skills, communication skills and connections to work for students to have their voice heard.

I am dedicated to promote transparency allowing students to know what is going on in their union. I would like to work to raise funds so students can host more events, organize free workshops for new comers and to support students where needed.

I look forward to work hard to be a strong President and outspoken voice for students to make better student experience for you all. If my fellow students have any idea of any other issue that is going on, i can be reached at dsd987@uregina.ca
