

Candidate Profile-

My name is Harmeet Singh, I am studying in the faculty of CCE. I am pursuing one year course in University Of Regina. I am an international student from India. Currently I am Director of international students. Going forward this year I am running for the position of VP student affairs. The main motive behind this position is to increase the strength of University students. Being a student I know most of the problems of students in various parts of University. Such as problems related to study, living, advocacy and mentally pressure. I feel that I could be a better candidate for this position cause I already worked for international students. Now I want to get an opportunity at high level to serve all the students by what they need in university.
