

My name is Selma Babini. I am in the second year of my social work degree.

I've always aspired to be a social worker as I'm very passionate about the health and well-being of the general public. Through my social work degree and experience, I will be able to connect better with the students on campus. Due to the prolonged exposure to the variety of people I will be interacting with, it will help me get my name across and make connections and valuable contacts that will help later on in my career as a social worker. The students will be more comfortable interacting with someone else that can relate to the student life and understand the hardships they are facing.
