My name is Uniniafore Jegede or Nini. I am a female international student running for the post of Women students. My ultimate goal is to bring more female voices to the URSU and make sure that they are heard. I also hope to increase the participation of women students. It is important that we are not seen and the lesser gender and are portrayed as what we are, Strong Female leads, with eloquent voices, distinguished opinions and great problem-solving skills.

I hope to achieve this with time and a series of activities designed specifically to appeal to the female audience as many females seem receptive to joining the URSU. I hope you can believe in me enough to have me represent you and your interest. Thank you.
