Hey everyone, my name is Alexander Kuntz, I am a third-year undergraduate student at Campion College, and I am currently majoring in Computer Science. In my free time, I enjoy spending time with friends as well as going to the gym here at the University of Regina, where I do strength training. Since this semester is my first at Campion College to be fully back to in-person classes, I figured it was time for me to also get more involved in Campion College's amazing community. I had already started this process by recently becoming a member of Alpha Sigma Nu, the Jesuit honours society here at Campion College that dedicates itself to upholding the virtues of scholarship, loyalty, and service. To take this initiative further, I decided that there was no better way to get involved here at Campion College and represent the College's students than to run for the URSU position of Campion Director. I love meeting new people, so if you ever see me on campus, or have any questions for me, don't be afraid to come and say hello!
