

Fellow students,

My name is Zuhruf Zarooq and I am running for the Vice President of Student Affairs position in URSU. I believe I have the skills, experience, and commitment necessary to make a positive impact on the student body.

My platform is centered around three core pillars: advocacy, engagement, and inclusivity. First and foremost, I am committed to advocating for the needs & concerns of all the students. This includes working to increase funding for student programs and services, advocating for policies that support student success and wellbeing, and ensuring that the student voice is heard in all decision-making processes.

Secondly, I am dedicated to increasing student engagement on campus. I believe that a vibrant student community is essential to a successful university experience, & I will work tirelessly to create opportunities for students to connect with each other. This includes organizing social events, promoting student clubs and organizations, and encouraging students to get involved in campus activities.

Finally, I am committed to creating a more inclusive campus environment for all students. This means working to eliminate barriers to access and opportunity, promoting diversity and

inclusion in all aspects of campus life, and advocating for policies and practices that support the success of underrepresented and marginalized students.

In summary, I am confident that, if elected, I can make a meaningful contribution to the student body and help ensure that URSU represents the needs & interests of all students.

Thank you!
