

My name is Harjot Singh and I am currently attending the University of Regina to obtain a certificate in administration. It gives me great pleasure to announce my candidacy for the Faculty Director of the Centre for Continuing Education.

I've learned the worth of every person's voice and the significance of accountability via my academic career. With the help of you If I am appointed Faculty Director, I swear to act as our faculty members' unwavering champion, making sure that their issues are acknowledged and resolved at URSU. Ensuring accountability and openness within the University of Regina Students' Union (URSU) will be my top focus. I truly think that each and every student should be fully informed about the choices and actions that URSU makes on their behalf. I will therefore put forth great effort to put rules and procedures into place that support transparency, integrity, and accessibility in every facet of URSU's activities. Through cultivating an environment of openness and being answerable to the student body, we can enhance our community, establish trust, and accurately reflect the needs of each and every University of Regina student.
