

Hello, I am Honey Patel and I am running for Vice President of External Affairs. My primary goal would be to promote inclusion and awareness among the students.

My past experience with The Union as a Board Director helped me shape my vision on the Union from both a student and an employee perspective. Working with the Union and as an Internal Chair of ASHRAE an engineering student club made me realise the connections of different clubs and how important the union is for them. My visions for upcoming Union year would be to strengthen that bond between different Clubs and societies and the Union. Also, the union is all by the students and all for the students. I will be available and approachable to each and every student who want to raise their concerns and ask for help. Also, as we prepare for the future, I want to continue the legacy of previous execs and take Fund the Future rally to another level by teaming up with different student and society clubs. I want every student to know and be a part of the Union, and my plans for that are by organising different seminars, workshops and vast advertisements about the union's plans and events .

As a candidate for VP External Affairs in student elections, I am dedicated to working hard to ensure the union continues to grow and thrive. I have the skills, experience, and passion to make a difference, and I am committed to working with my colleagues and students to achieve our goals. I look forward to serving as your representative.
