

Hello! My name is Saleh Quraishi and I'm a second-year Psychology student in the Faculty of Arts. I am thrilled to announce my candidacy for the position of Director of the Faculty of Arts at the University of Regina!

Being an Arts student myself, I have an idea what is on students' minds. We want more research opportunities, more resources for academic excellence, more co-op opportunities, and to have our voices heard. You can count on me to do my best to bring progress in all of these departments.

I have a headstart in serving people on campus due to my diverse background and the fact that I'm multilingual. I am originally from Hyderabad, India, which had me learning Urdu for school studies and speaking Hindi on the streets. Arabic is something I'm becoming increasingly comfortable with, though I'm far from fluent. At the same time, I was born and raised in Toronto, Ontario. This background has truly helped me relate and connect with a much broader group of people.

I have had an obsessive passion for the Arts ever since I was a kid as I drew my own comics, would try my best at acting, and even learn to play the piano. My passion has never died out and I still maintain a creative output for it through creating documentary-style videos on YouTube among many other things. I am eager to contribute my leadership skills and vision to help advance the Faculty of Arts further!
