

Candidate: Constituency Director - Women. Shivangi Sharma (She/Her)

Hello all, my name is Shivangi Sharma. I am a third year student at the UofR in the Faculty of Science pursuing an Honours in Biology. The University of Regina takes pride in being a diverse and all inclusive campus and promises safety. While this promise is somewhat delivered at a macroscopic level, being someone who identifies as a woman and someone who has been on campus for three years, I see cases of disparity and lack of recognition on a microscopic level, more often than not.

The University of Regina Student's Union represents the students of UofR. I believe as a students' union it is not just URSU's responsibility but also an obligation to ensure that an ambiance of equity, safety and representation is harboured on campus for all the students, including everyone who identifies as a woman.

I have been with *the Carillon* as the news writer for about an year which has given me the necessary skills to communicate with the students on campus about the problems that needs recognition and resolution. On a personal level, I recognize the struggles that come as an outcome of microscopic not so apparent disparities which make me religiously committed towards the cause of working towards establishing an environment which is viable, encouraging and progressive for everyone who identifies as a woman on campus. I would therefore like to put my name forward as the Constituency Director - Women for URSU election 2024.
