

I, Bashar Moolla, am running to be your next Equity and Campaigns Constituency Director. My involvement in the URMSA (President), URPOLIS (Outreach coordinator), and UR-Prelaw Student Association (Director of Sponsorships) has not only broadened my understanding but also fueled my passion for advocating for a campus environment where every student's voice is amplified and where diversity is not just accepted, but celebrated.

With a comprehensive insight of the challenges and opportunities within our student body, I am committed to fostering a community that upholds the values of equity and inclusivity. My approach is collaborative and action-oriented, drawing on my experiences to implement initiatives that have real, positive impacts on student life.

As your representative, I will leverage my diverse experiences to:

- Promote policies that ensure every student has access to the same opportunities, support, and resources.
- Spearhead campaigns that address the pertinent issues of our times, from mental health awareness to social justice.
- Cultivate an environment of engagement, where the rich tapestry of our community is woven into the fabric of our university's culture.

I understand that real change comes from listening, understanding, and then acting. Together, we can create a more equitable and connected campus.
