

Fellow students,

My name is Zuhruf Zarooq and I am running for the Vice President of Student Affairs position again in URSU. My candidate profile is going to be short and right to the point, I believe I have the skills, experience, and commitment necessary to make a positive impact on the student body.

I have made many good changes during my tenure as the VPSA. I am running again so I can solidify the changes and improvements that I've done during my tenure. I believe my position needs continuity, so the projects and good works that was introduced during/before my tenure is standardized and not be disregarded. Hence, I will need your support once again this year.

In summary, I am confident that, if elected again, I can make a meaningful contribution again to the student body and help ensure that URSU represents the needs & interests of all students.

Thank you!
