

Candidate Profile: Jensen Vu

About Me:

Hello, all! I am exceptionally excited about this opportunity to announce my candidacy for this year's By-Election. I am a third-year Arts student, from the department of Justice Studies. I wish to carry the passion that I possess for justice and advocacy into the Student Union as Faculty Director of the Arts. Over the course of my education, the unique experiences and challenges that the faculty presents, has been a first-hand experience of mine. Which leads my primary focus to be on enhancing the overall academic and professional development experience for our students.

Upon your trust and vote, my commitment is to amplify the voices of our Arts community, to bring you more opportunities of academic support through means of connection, between yourself and the peers of your faculty. I hope to advocate for more Arts' department events, the increase of Co-Op opportunities in Arts programs, and more accessible workshops for each department. My dedication and objective is to foster a collaborative learning environment through experiences of peer mentorship and initiatives of outreach with the community.
